UNIVERSAL Mirror is made of a reflective acrylic part, surrounded with a black PVC seal along the edge, and of a red polypropylene body with rear visor high resistant to UV rays.

The high quality of the materials gives this product excellent physical properties and an elegant design.

Universal is characterized by lightness and high resistance to atmospheric agents, allowing the use as a complement of urban furniture and tool of prevention in low-visibility roads. It is available in a wide range of diameters, the version with the reflective material anti-shock is recommended for areas with high rates of urban vandalism (see the section on the diameters).

It's available with various support systems, according to the needs of the user:: pole connection  $\varnothing 48$  mm,  $\varnothing 60$  mm or  $\varnothing 76$  mm, wall bracket.

## Technical datas

Code	Ø mm	Net W. kg	GrossW. kg
U30	300	1,048	1.40
U40	400	1,687	2.20
U50	500	2,163	2.90
U60	600	2,652	3.60
U70	700	3,541	4.80
U80	800	4,469	6.00
U90	900	5,772	7.60
